- Financially Stable School District
- Excellence in Education: Accountability & High Expectations

Mission Statement

Silver Lake

is dedicated to providing excellence in learning for all students through strong instructional leadership, a safe and inviting environment, and a partnership with parents and community.

Silver Lake Public Schools: **Strength in Four Communities**

The Silver Lake School District has entered into its third decade of operation. Its development has been one of providing cutting edge educational opportunities for area students and communities.

In 1986, the Bladen and Roseland School Districts joined together, transforming the former Bulldogs and Cardinals into the Maroon and Silver - Silver Lake Mustangs. In 1998, the Cardinals of Campbell Public School joined the Silver Lake family, and in 2006, the former affiliated Class I district of Holstein was assimilated into our present district.

Considerable time and dedication are continually invested to ensure our students receive the latest technological trends, class offerings, facility needs, transportation, quality staffing and strong co-curricular offerings. The Silver Lake community is proud of the strong and ever growing tradition and support received from its families and communities. Silver Lake's success and continued success can be attributed to the willingness of our students, staff, patrons, parents and communities to come together as one "Silver Lake Family".

*Silver Lake—A Great School,
Continuing to Become Better!*
