

What I Like About Silver Lake

My favorite subject in school is P.E. I like P.E because it gets you in shape and you play games. The game we usually play is line tag, and kickball. I like P.E. the most because he makes us do push ups and sit ups. I also like P.E. because you get to joke around with your friends. The best part about it, you get to hang around the cool P.E teacher Mr. Iverson.

What I Like About Silver Lake

I like the Christmas program because we get to audition for parts. When I get a part it is awesome. I like practicing. It is really fun. Sometimes it's tiring after practicing for a long time. When we get to the night of the play I get really nervous. But then when it's over I am really happy. I think we put on the best plays at Silver Lake Elementary.

What I Like About Silver Lake

My favorite thing about school is lunch. At lunch I get to talk with my friends. I get to fill my empty stomach. The food is terrific. I like taco salads the most. Sub sandwiches are my least favorite. If I'm still hungry I can go back for seconds. I think our cooks do the best job at making our lunches.

What I Like About Silver Lake School

Technology is my favorite subject in school. We get to do Word, PowerPoint, games, and of course Comic Life. My favorite is Comic Life. You get to put funny pictures and jokes on your Comic Life assignments. As a class we have done autobiographies and wrote newspaper articles about fairy tales on Comic Life. Have you ever done Comic Life? Well if you have, I bet you would agree that it is very entertaining. The technology at our school makes assignments more fun and interesting.

What I Like About Silver Lake

My favorite thing during my school day at Silver Lake is Social Studies. I like learning about history. It is interesting. I have learned about explorers and the land they discovered. I know who discovered the land that I live on. It is fun to see what people in history did. Sometimes it is amazing what people have done. I like it when we do worksheets after we do the lessons. The worksheets are easy and never take too much time.

What I Like About Silver Lake.

The thing I like best about school is Science. I like it because I like doing experiments. Experiments are fun because you get to get dirty. My favorite experiment was electricity. I liked it because I got to make a bell. I also like to do Snap-On Electricity. It is electric equipment that you use fans, bells and a lot more to make electricity. I like Mrs. Mahoney. She makes Science fun and interesting. Do you like Science like I do?

What I Like About Silver Lake

My favorite thing to do in school is the Christmas Program. The first thing I like about the Christmas Program is that you get to audition for parts. I like the Christmas Program because you get to act. Have you ever acted before? I also like to sing and do solos in the Christmas Play. It is fun to do solos. I am looking forward to playing in band for the Christmas Program. I like to show my parents and grandparents what I am doing in school for music. Do you like showing your parents what you do in school?

What I Like About Silver Lake

My favorite thing in school is math because I am good at it. I like division and multiplication. I am the best at those. I also like addition and subtraction. All four things are easy. Addition, subtraction, multiplication, and division are all fun to do. I also like fractions. We learn about how we can add and subtract the fractions. Do you know how to add and subtract fractions? Do you know how to read the time and temperature? I do because I learned it in math. I am learning all sorts of things about math at Silver Lake.

What I Like About Silver Lake

My favorite thing I like in school is writing. The reason I like writing is that you get to write stories. I love to write because you get to write about things that have happened to you. You also get to express your feelings. You can write funny stories on the computer and put pictures with them. It is very fun to do. At Silver Lake I am learning to become a good writer and I am also learning to use the computer at the same time.

What I Like About Silver Lake

My favorite thing about school is technology. I like technology because we have laptops and flash drives. My classmates and I get to make lots of power points. If we do not get the assignments done, we get to take it home and do our assignment at home on our flash drive. I also am very good at working on the laptops. My classmates and I also get to type lots of stories on the laptops. We are typing this on our laptops right now. They make doing homework easier and more fun. Do you like technology?

What I Like About Silver Lake

The thing I like at Silver Lake School is spelling. I like spelling because you can spell words and learn what different words mean. In spelling you can get smarter by spelling words correctly. Since I like spelling I get to go to the Spelling Bee. I get to challenge other kids from different schools to see who the best speller is. If you know how to spell then you know how to write words. When you become an adult you will need to know how to write. In my opinion spelling is the easiest subject in school. Do YOU know how to spell words?

What I Like About Silver Lake

My favorite thing about school is Social Studies. Social Studies tells me about history, and it tells about my favorite person Benjamin Franklin. He was a great person. He discovered electricity. He got a kite and put a key on it and flew it in stormy weather. He got an electric shock from the lightning. Did you know he also published the first newspaper, helped build the first library, hospital, and started the first volunteer fire department? We learn lots of interesting things during Social Studies at Silver Lake School.
