

Abby

The best thing about school is P.E. I think P.E is very important because, that is where you exercise. If you don't exercise, then you could get bigger. It may not be fun, all the time, but you build muscles by doing push-ups or crunches. You could become faster with the form running. Because of our P.E program students become stronger, become runners, and become healthier students.

Cole

What I like about Lake Elementary is science. I like science because our teacher is nice and we get to do fun labs. I also like the teachers because they are very nice to the students at our school and give you the right amount of homework. I like music class because we do Christmas plays that re lots of fun. Our teacher comes up with the best songs. these reasons are what make Silver Lake Elementary.

Kaitlyn

My school has great technology. We don't use it just for fun. We use it to teach ourselves about certain subjects, and to learn. Our teachers are the second best thing about our school. Teachers help us get a good education, so we can go to college. Our school administrators are one important thing about our school. Do you know how much time they put in to keep our schools going? They take their day to spend time with us and keep our schools in line. That is how good our administrators are to our school. This is why our schools are great places to be, because we receive an awesome education, which will help us get a scholarship to go to college.

Levi

What I like about our school is our technology, education and the types of classes we have. I think our technology is good because we have computers that make class fun easier to do. Also we use smart boards so the teacher can do activities from his or her computer, and we use clickers so we can study and take tests faster. Also our education in our school is great because we use certain books that make education easier. This is why I like my school.

Nebi

I like the technology at our school the best. We get to use laptop. I like the laptops because we have Photo Booth. In Photo Booth we have special effects. The one effect that my cousin and I love is the stretch. Plus if you don't have time to write your essay you can plug in your flash drive and you just type it. We also have clickers. I like the clickers because you don't have to wait to see your grade. Once everyone enters in their answers the teacher presses end and you can see if you got it right or wrong. All of this technology is very helpful.

Quentin

I like all the teachers and students. Of how well they treat what they're given. There are good manners from the students. Most students have respect for the teachers and the other students. The teachers help all of the student do there best. But, most of all the teachers do well at what they do.

Randa

The things I like best about my school are the music and band programs. I like that we do a Christmas and spring program every year. I also like that we can have books, speakers, and microphones to use at our programs. Our music teacher puts in many hours of hard work and dedication to make sure that our band and singing voices sounds perfect. We also have many instruments, books, and cads to use when we are not working on our programs.

Sydney P.

What I like best about our school is the music and art programs. I think that art and music are special because we have great teachers who make it all possible. In music and band we learn many great things. We started learning our music notes and beats with Mrs. Dart in second grade. Now I play the alto saxophone. We have a wonderful band! I also like art with Mrs. Hinrichs because we do all kinds of creative projects. I am proud to attend Silver Lake Elementary.

Haley Pierce

What I like best about Silver Lake is music. Mrs. Dart always picks out awesome programs and music. We are recently doing a fantastic Christmas program. It has great songs too. She has put so much effort into it, and so have we. She puts all of her time into though, but for us. It is excellent having a teacher so creative and fun. It is exciting!

Joslyn

What I like best about Silver Lake Elementary school is that we have band and music. I like that because we have a great music teacher and we have the opportunity to get involved in band and other programs. When the time comes for our programs we practice and practice until we have all the songs and speaking parts perfectly memorized. We have band practice twice a week and practice more when program time comes. That is what I like best about Silver Lake Elementary school.

Syd

What I like best about Silver Lake Elementary is the Music class. The reason I like it is because of our Music programs. Our programs are always terrific. No one ever has a bad thing to say about them. The main person behind the programs is our music teacher, Mrs. Dart. She may get mad sometimes but by the end of the day she is always happy. With out her, well I couldn't imagine what the Christmas and Spring programs would be like.

Morgan

What I like about silver lake is music. Every year we have an amassing school play! Our music is so wondrous because, we take time on it. It is also a good way to express our selves! We do many things like play boom whackers, dance, listen to different music, and my favorite band! The best thing about it is we have a blast!
